Company Profile

The Dangote Group is one of the most influential and diversified conglomerates in Africa, with a strong presence in several industries, ranging from cement and food production to oil refining and agriculture. Founded by Aliko Dangote in 1981, the Dangote Group has evolved from a small trading business into a multinational empire with an extensive portfolio of companies. The group's operations span multiple African countries, and its impact on the continent's economic growth is undeniable.

In this blog post, we will explore the full list of companies owned by the Dangote Group, highlighting their key industries and contributions to Africa's industrial landscape.

1. Dangote Cement

.Industry: Cement Manufacturing
Dangote Cement is the flagship company of the Dangote Group and is one of the largest cement manufacturers in Africa. With multiple cement plants across Nigeria and other African nations, Dangote Cement plays a vital role in the development of infrastructure across the continent.

.Products: Ordinary Portland Cement (OPC), Dangote 3X, and Dangote Cement grades 32.5, 42.5, and 52.**5.**

.Expansion: Dangote Cement has expanded beyond Nigeria, with operations in countries like Ethiopia, Tanzania, South Africa, and Senegal.

2. Dangote Sugar Refinery

.Industry: Sugar Refining and Production
Dangote Sugar Refinery is a major player in the sugar industry in Nigeria and one of the largest in Africa. The company produces refined sugar for both household and industrial use and owns several refineries in the country.

.Products: Granulated Sugar, Iodized Salt, and industrial sugar for food processing.

.Subsidiaries: The company is involved in sugar cane farming and has expanded its reach through projects like the "Outgrower Scheme" to boost local sugar production.

3. Dangote Flour Mills

.Industry: Food Processing
Dangote Flour Mills is one of the largest flour millers in Nigeria. It produces high-quality flour products used in various baked goods and foods, contributing significantly to the

nation's food security.

.Products: Wheat flour, semovita, pasta, and noodles.

.Key Brands: Dangote Flour, Semovita, and Dangote Pasta.

4. Dangote Salt

.Industry: Salt Production
Dangote Salt is one of the leading producers of salt in Nigeria. The company manufactures iodized salt, which is essential for both domestic and industrial use. Its products are used in food, agriculture, and chemical industries.

.Products: Iodized salt, industrial salt, and edible salt.

.Operations: Dangote Salt operates various salt production facilities across Nigeria, with a significant presence in the local market.

5. Dangote Oil Refinery

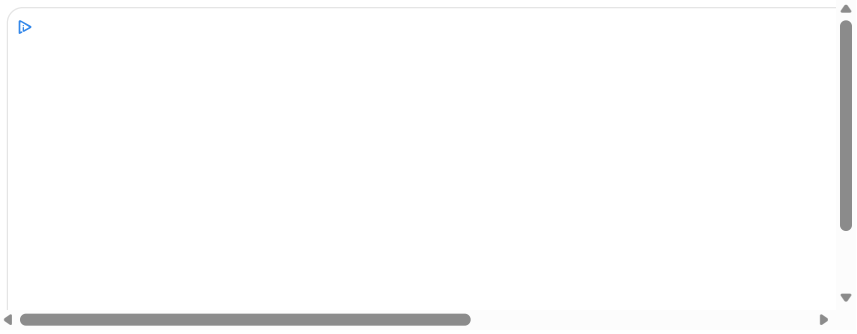
.Industry: Oil Refining
The Dangote Oil Refinery is one of the most ambitious projects of the Dangote Group, with plans to become one of the largest oil refineries in the world. The refinery will significantly reduce Nigeria's dependency on imported refined petroleum products and provide job opportunities for thousands of Nigerians.

.Products: Refined petroleum products, including gasoline, diesel, kerosene, and petrochemicals.

.Capacity: Upon completion, the Dangote Refinery will have the capacity to process up to 650,000 barrels of crude oil per day.

6. Dangote Fertilizer

.Industry: Fertilizer Production
Dangote Fertilizer is one of the largest fertilizer manufacturers in Nigeria and Africa. The company produces fertilizers that are essential for increasing agricultural productivity across the continent.



.Products: Urea fertilizer and other specialized fertilizers for agricultural use.

.Operations: The company operates a world-class fertilizer plant in Nigeria, which is set to supply both local and international markets.

7. Dangote Petroleum Products

.Industry: Oil and Gas Distribution
In addition to refining, Dangote Petroleum Products is involved in the distribution of petroleum products throughout Nigeria and neighboring countries. The company operates in the downstream segment of the oil and gas industry.

.Products: Gasoline, diesel, kerosene, and other refined petroleum products.

.Operations: Dangote Petroleum Products is key to providing essential energy products in West Africa.

8. Dangote Steel

.Industry: Steel Production
Dangote Steel is a crucial part of the Dangote Group, producing steel products for the construction, manufacturing, and infrastructure industries. With large-scale operations and a focus on enhancing Nigeria's steel production capacity, Dangote Steel is driving industrialization in the region.

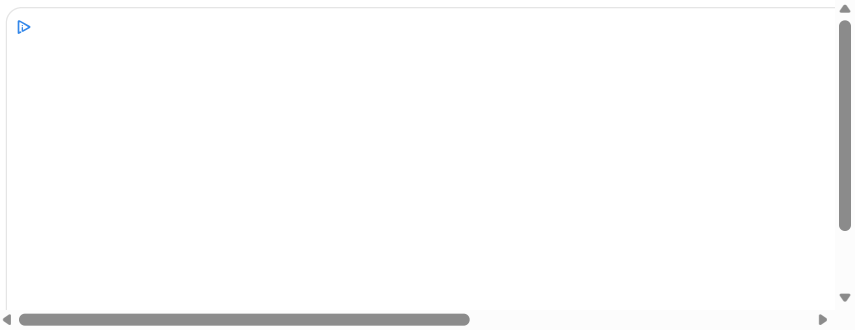
.Products: Steel rods, billets, and other steel products for construction and industrial applications.

.Expansion: Dangote Steel is working on establishing an integrated steel plant, contributing to the development of Nigeria's steel sector.

9. Dangote Transport

.Industry: Logistics and Transportation
Dangote Transport is the logistics arm of the Dangote Group, responsible for the transportation of raw materials, finished products, and other essential goods across the company's supply chain.

.Operations: The division operates a large fleet of trucks and trailers, facilitating the movement of goods between Dangote's various factories and distribution points.



.Scope: The logistics network is vital for ensuring that Dangote products reach local and international markets efficiently.

10. Dangote Power

.Industry: Power Generation
Dangote Power is involved in the generation and distribution of electricity, primarily to support Dangote Group's manufacturing facilities. The company aims to help resolve power shortages in Nigeria, which have historically hindered industrial development.

.Operations: Dangote Power is working on various energy projects, including coal-powered plants and renewable energy initiatives.

.Goal: To provide reliable power supply to Dangote factories and contribute to national energy sustainability.

11. Dangote Real Estate

.Industry: Real Estate Development
Dangote Group has expanded into the real estate sector, focusing on both residential and commercial developments. The real estate arm aims to address the growing demand for housing and office space in Nigeria and other African countries.

.Products: Residential estates, office buildings, and commercial properties.

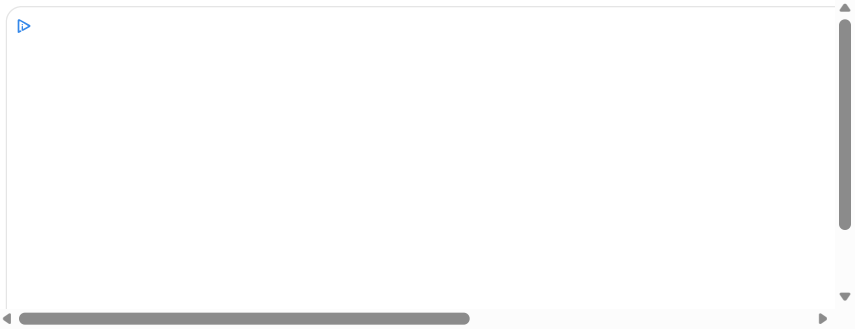
.Projects: Dangote Real Estate is involved in major urban development projects across Nigeria, focusing on creating modern, sustainable communities.

12. Dangote Chemicals

.Industry: Chemical Manufacturing
Dangote Chemicals manufactures a wide range of industrial chemicals used in various sectors, such as agriculture, construction, and manufacturing. These chemicals are essential for producing everyday products and industrial goods.

.Products: Industrial chemicals used in manufacturing, textiles, plastics, and paints.

.Scope: The company is involved in producing chemicals that serve local and international markets.



13. Dangote Glass

.Industry: Glass Manufacturing
Dangote Glass is a subsidiary that produces glass products for various industries, including construction, automotive, and packaging.

.Products: Glass for residential and commercial use, as well as automotive and beverage packaging glass.

.Technology: The company uses advanced technology in glass production, ensuring the quality and durability of its products.

14. Dangote International Limited

.Industry: International Trading
Dangote International Limited is the global trading arm of the Dangote Group, responsible for facilitating international trade and expanding the group's global reach.

.Operations: The company engages in the import and export of various products, including raw materials, agricultural commodities, and consumer goods.
